Full Description: Shipment Trackingfor nopcommerceExecula Shipment Tracking plugin provides your customers with the information about the order delivery. The plugin offers an extensive compatibility to automatically update the system about the tracking info. The site managers can track the shipment by getting automatic updates and minimising the manual work. Shipment tracking plugin allows users to escape the tedious manual order management using two shipment methods like UPS & USPS. The plugin help you to track your shipment and push shipment updates until the order is delivered to your customer. Once the tracking number is entered for a particular supports carriers, it automatically runs the query to check the status of the shipment. The query is fired for every particular interval to get delivery status. Once the shipment is delivered it automatically updates the system and sends mail to the customer about the delivery. Further the status of the order is marked as complete in the system. Developed by Execula LLC.Features1.Supports carriers like FedEx, Speedy Delivery, UPS & USPS for shipping worldwide.2.Add shipment tracking info to orders – shipping provider, tracking number and shipping date.3.Admin Configuration to add UPS/USPS shipment Tracking.4.Schedule task to help track order.5.It shows messages for orders that are Shipped & Paid.6.Gives tracking ID for shipped orders.7.No need track manually orders.
