Short Description:  Website security should be a top priority. Execula IP Filter is a nopCommerce plugin that keeps your website secure from troublesome bots and malicious users and safeguards it from spam or theft of sensitive information by filtering IP addresses based on various attributes.
 Supported Version: nopCommerce 4.2, nopCommerce 4.3, nopCommerce 4.4, nopCommerce 4.5

Full Description:  IP Filterfor nopCommerceExecula IP Filter Plugin protects your site from spam, unwanted visitors, or hackers from countries, IP ranges, or IP addresses. It allows you to create a set of rules that either discard or accept traffic over a network connection. Execula IP Filter can filter traffic based on many packet attributes such as source IP address, source port, destination IP address or port, or destination services, and more. It identifies the GeoIP location of consumers and allows you to limit them from a complete store or limited products. The plugin makes it possible for you to enhance web security by banishing the irrelevant and spam visitor's control which IP addresses can access your Server. Configure the plugin to allow the login only from some specified IPs or the specified countries and focus on the visitors you want to convert. Developed by Execula LLC.features1.Limit access your site to visitors who are logged in or accessing the site from unwanted countries, IP ranges2.Blacklist or Whitelist IP addresses3.No coding skill is needed, quick installation4.Easy installation and management5.Support IPv4 and IPv66.Country filter7.IP network filter7.IP address filter (allow/deny)7.Good performanceSpecificationsSupported versions: 4.2, 4.3, 4.4Responsive DesignRazor files are open to modificationsThemeableEasy to install and manage from the nopCommerce Admin panel
